### **SAFE OPERATING INSTRUCTIONS**

**An important message for owners and operators of In-Ex attachments/accessories.**

Your safety is In-Ex's primary concern. It is important that you understand that any loads or attachments whether fastened to or placed on a vehicle or ATV will alter the stability and handling characteristics of that vehicle or ATV.

We take this opportunity to remind you about the simple, basic and common sense rules of safety when using spray tanks or other equipment. **NEVER EXCEED THE LOAD LIMIT CAPACITY OF THE ATV OR OTHER VEHICLE.** Spray tanks or other equipment must be filled to a level where the gross weight is within the load limit of the ATV or other vehicle.

### **EXERCISE EXTREME CAUTION WHEN OPERATING ON HILLY OR UNDULATING TERRAIN**

**PLEASE BE CAREFUL!**

Failure to follow these rules can result to severe injury or death to operators or bystanders.

#### DESCRIPTION

The In-Ex "Chainsaw, Axe and Shovel Holder" is a multi-purpose accessory designed for carrying a chainsaw, shovel and axe or other long handled tools on the front or rear carrier of the ATV.

The holder is manufactured of tough non-corrosive polyethylene designed to securely hold and protect the objects while being carried.

#### ATTACHMENT

The "Chainsaw, Axe and Shovel Holder" can be securely attached to and quickly removed from front or rear ATV carrier frames using the attachment pin and hook.

The holder mount bracket sits on the top rail of the carrier, and is retained by the pin. The hook mounts through an appropriate slot in the holder and around the ATV carrier or support rails, the threaded stem of the hook is then secured by fitting the flat washer and spring washer over the stem and tightening the wing nut.

#### NOTE

Most chainsaw models up to 20" can be fitted. The chain brake hand guard on some chainsaw models may cover one of the tool handle holes.
